Appointment of Master Building and Civil Consultants for Changi Airport Terminal 5

SINGAPORE, 13 April 2018 –Changi Airport Group (CAG) today announced the appointment of the Master Building Consultants, comprising three teams, that will provide architectural design and engineering consultancy services for the development of Changi Airport’s Terminal 5 (T5). It also announced the appointment of the Master Civil Consultants for the T5-related landside and airfield works.

Master Building Consultants

The firms that have been appointed are:

- **KPF (Singapore) Pte Ltd**, in partnership with **Heatherwick Studio** and **Architects 61 Private Limited**, for the provision of architectural design services;
- **Arup Singapore Private Limited, Mott MacDonald Singapore Pte Limited, and Surbana Jurong Consultants Pte Ltd**, for the provision of engineering services; and
- **DP Architects Pte Ltd**, for the provision of design services for commercial spaces.

These firms will provide full consultancy services for the design of the Main Terminal Building, Satellite Terminal Building, Ground Transportation Centre and Primary Landside Roadway.

Master Civil Consultants

The Master Civil Consultants appointed are **Arup Singapore Private Limited, Mott MacDonald Singapore Pte Limited, Surbana Jurong Consultants Pte Ltd** and **Changi Airport Planners and Engineers Pte Ltd**.

These firms will provide consultancy services for the design of infrastructure at the landside and airside areas outside of the T5 buildings. These include taxiways, aircraft parking stands, roadways and drainage systems, as well as the connections for utilities such as power, water, gas, fuel and telecommunications to the T5 buildings.

T5 will cement Changi Airport's position as a premier global air hub

Mr Yam Kum Weng, CAG's Executive Vice President for Airport Development, said, "Today's award of the contracts comes after months of in-depth discussions with each of the shortlisted firms. We thank all the firms for working closely with us on their proposals for this project and look forward to taking the development of T5 forward with our appointed consultants."

“With the aviation industry expected to experience strong growth in the coming decades and demand for capacity at Changi Airport projected to increase annually, the development of T5 as a single integrated terminal will ensure that Changi Airport remains competitive as a leading air hub capable of serving the growing needs of our airline partners and taking the travel experience of passengers to new levels.”

With the appointments of the Master Building and Civil Consultants, CAG will embark on the full design journey for the T5 project. The terminal is part of the larger Changi East development project that includes a three-runway system, as well as the development of cargo complexes and other supporting aviation and ground transport infrastructure. The project will provide Changi Airport with additional capacity of up to 50 million passenger movements per annum in its initial phase and 100 more aircraft stands.

About Changi Airport Group

Changi Airport Group (Singapore) Pte Ltd (CAG) (www.changiairportgroup.com) was formed on 16 June 2009 and the corporatisation of Singapore Changi Airport (IATA: SIN, ICAO: WSSS) followed on 1 July 2009. As the company managing Changi Airport, CAG undertakes key functions focusing on airport operations and management, air hub development, commercial activities and airport emergency services. CAG also manages Seletar Airport (IATA: XSP, ICAO: WSSL) and through its subsidiary Changi Airports International, invests in and manages foreign airports.

Changi Airport is the world's sixth busiest airport for international traffic. It served a record 62.2 million passengers from around the globe and handled 2.13 million tonnes of airfreight throughput in 2017. More than 400 retail stores and 140 F&B outlets are situated across four terminals to cater to passengers and visitors. With over 100 airlines providing connectivity to 400 cities worldwide, Changi Airport handles about 7,200 flights every week, or about one every 80 seconds.
