## Changi Experience Studio to offer first travel-themed dining experience with Le Petit Chef

**Singapore, 5 November 2024** – Experience an immersive culinary adventure at Changi Experience Studio, from 29 November 2024 to 30 April 2025, in a special collaboration with Le Petit Chef. For the first time, Le Petit Chef's multi-sensory dining concept will incorporate a travel theme, and guests will enjoy their meal in the unique setting of an attraction, a departure from traditional restaurants.

With 3D mapping technology, engaging animations are projected onto plates and the dining table, led by the world's tiniest chef – a charming 6cm figure who brings each course to life with his playful explorations. As guests embark on this culinary voyage, they will be transported through various destinations worldwide, experiencing the flavours and cultures associated with each location. Originally from France<sup>[1]</sup>, the concept has gained international acclaim for its creativity, making every meal an artistic performance.

Each course is crafted around engaging storytelling and theatrical elements that elevate the dining experience. In this rendition of Le Petit Chef at Changi Experience Studio, the show's narrative will begin from Changi Airport, following the journey through the airport. From the process of checking in to taking off, guests are part of an animated journey guided by the mini chef and can expect surprises and lots of fun in between the courses.

Before or after the show, guests can explore Changi Experience Studio, an airport-themed digital attraction that offers a wide range of interactive experiences. From immersive shows and digital exhibits to interactive games, the studio provides a fun and engaging complement to the Le Petit Chef dinner show.

This experience is perfect for celebrating special occasions, creating unforgettable memories with family and friends. Guests can choose from lunch, tea-time, or dinner shows, with a kids' menu available. Seasonal menus will also be offered during festive periods such as Christmas, Chinese New Year, and Valentine's Day.
